The TUH Skylab Innovation Pipeline

Everything needs a DTU person on the team unless it says open to all.

DTU course · Hospital · TUH Skylab · DTU Skylab · Funding · Scale-up · Beyond DTU

DTU staff employees only · needs CVR company exists · before CVR no company yet · planned or to confirm

	01 Need Find a real clinical problem	02 Explore Ideate and form a team	03 Build Prototype and test with users	04 Incubate MVP, business model, company	05 Scale Company in the market
Courses *For ECTS*	**Needfinding at the Hospital** 5 ECTS · autumn	**Innovation in Engineering** 42500 · 5 ECTS · January · fit to confirm, projects often predefined	**Rapid Prototyping & Co-creation in the Clinic** At Rigshospitalet · 5/10 ECTS · spring **X-Tech Entrepreneurship** eHealth & LifeScience tracks · spring	**X-Tech+ · Feasibility Study · Due Diligence** Follow-on courses, ~6–12 places each	*An MSc thesis can carry a project through any phase*
Clinic *TUH Skylab and wards*	**Minisprint with Clinicians** 1 day on a real case · autumn	**Healthtech Hackathon** ~40 places · spring & autumn	**TUH Skylab makerspace at Rigshospitalet** Prototype next to the clinic: 3D printing, laser cutting, fly-in desks, tech & business guidance, feedback from clinicians and patients		**Clinical pilot & adoption** A department trials the product (proposed)
DTU Skylab *Events and the Startup Programme*		*The way in, no application* **Open-Door Coaching** Pitch to a coach	*Stage 1, up to 6 months* **Discover** Validate the idea, form the team	*Stage 2, 6–12 months* **Validate** MVP, plan, register CVR	*Stage 3, coming* **Launch Pad** Growth-stage support
	Info / In-Flight Session What Skylab offers, ideation crash course open to all	**EXPLORE · OpenInnovation** Cross-university programmes any Danish university **Pre-incubation** Healthtech Idea to Start-up · Jan & June	*Healthtech track runs inside Stages 1–3*	**Developer Hall · Prototype2Market** Hardware space, 3-month terms **MedTech Growth** DTU Science Park · MDR/IVDR devices · 10–12 months needs CVR	**DTU SkyFactory** Investors and advisors, by selection **Life Science Academy** Free DK/SE/NO startup programme needs CVR
Funding *Depends on who applies*	*No grants yet. Course budgets (X-Tech: DKK 5,000) cover small costs*		**Skylab Funding** DKK 15–150k · spring & autumn CVR within 3 months of award **Discovery Grant** ≤ DKK 100k · Stage 1 DTU staff	**Proof of Concept** ≤ DKK 500k · Stage 2 DTU staff **InnoExplorer** DKK 0.5–1.5M · Stage 2 before CVR	*Investors through SkyFactory and the programmes below*
Beyond DTU *Their own rules*	**CPH MedTech** Student-run summits & hackathons open to all	**Health Innovators** 3 months · CHI, KU, DTU, CBS · Feb any Danish institution **KU Lighthouse Launch** ~DKK 30k, 7 weeks · KU students	**BETA.HEALTH** DKK 0.5–1M + accelerator hospital-employed lead **NNF Pioneer Innovator** ≤ DKK 1.2M · held by the institution before CVR	**Innofounder** DKK 27.5k/founder/month · full-time CVR under 3 years **BII Venture Lab** DKK 4.2M convertible loan needs CVR	**BII Venture House · InnoBooster** Follow-on loans and grants **Pre-seed investors** PreSeed Ventures, Accelerace needs CVR
Any time	**Advisory Days** free legal, accounting & IP advice | **Workshops & Tech Support** register first, DTU card | **Pre-startup Mentoring** | **Wall of Opportunity** find co-founders				*company registered*

Time the CVR. InnoExplorer is lost once a company exists. Skylab Funding needs one within 3 months of the award.

Clinicians need a DTU co-founder for Skylab, or can lead through BETA.HEALTH.

Details, requirements and sources: *01 Internal Overview*. Dashed boxes are planned or proposed.
